

SET INCLUDES:

2 bases, 2 legs, 2 tops, 8 cup holders, 20 colored rings, clip and line assembly, 6 ping pong balls, 22 cups, 1 carry bag

SET UP

The table consists of 1 base, 1 leg, 1 top, 3 side cup holders and 10 colored rings.

1. Push and slightly turn the smaller portion of the leg into the base until it is steady (do not over tighten).
2. Set the top into the adapter of the leg, push gently.
3. Place the side cup holders into the small holes along the table edge.
4. Place the colored rings into the larger holes on the table in the following pattern: 1 black ring in front hole (by logo); 2 yellow rings into the 2nd row; 3 red rings into the 3rd row; and 4 blue rings into the last row.
5. Repeat with the second table.
6. The clip and line assembly will hook onto the small holes in the front section of the table. This will set the tables at 8' apart. You may wish to put the tables closer or farther depending on ability.

DISASSEMBLE

Pick up the table top off of the pole and place in carry bag. While pulling the pole from the base, a slight twist or putting your foot on the base may be helpful. Place all items in the carry bag.

RULES

The set up can be either single or 2 person teams. The players must stand behind their table when throwing the ball. No leaning on the table is allowed, leaning over the table is permitted. In either case, Team A gets 2 balls- 1 each for team play or 2 for single. Team A throws the ball into the far side cups. Points are awarded depending on which cup it lands in. If both balls land in separate cups the Team will get both balls back and repeat. Team B repeats the same process until the game is won.

Points:

Black ring	– 5 points
Yellow ring	– 3 points
Red ring	– 2 points
Blue ring	– 1 point

Point Pong can be played in the following two ways:

1. When a ball lands in a cup, that cup is removed, placed in a side cup holder and points are won. Players win when 15 points are scored.
2. When a ball lands in a cup, the cup stays in play. Players win when 30 points are scored.

POOL PLAY

The same games can be played in a swimming pool. All that is necessary are the 2 tops, cups, and clip and line. The game should only be played in the shallow end under adult supervision.

POOL PLAY CONTINUED

For even more stability while playing in the pool, put 4 cup holders in the front and back holes. Take an inverted cup, trapping the air, and insert it underneath into the cup holder. Fill the 10 game cups approximately 1/2 way with water.
